

Bryan K. Jones Jr.

Providence Forge, VA | bkjones01@gmail.com | 948-529-2938

PROFESSIONAL SUMMARY

Cybersecurity and IT professional with experience supporting enterprise systems, cloud technologies, identity and access management, and security-focused operations within large-scale environments. Currently pursuing a Bachelor's degree in Cybersecurity at Southern New Hampshire University with hands-on experience in AWS cloud environments, IAM governance, security monitoring, Windows Server administration, and enterprise application support. Passionate about AI security, cloud security engineering, automation, and protecting sensitive systems and data in production environments. Known for adaptability, problem-solving, collaboration, and the ability to quickly learn emerging technologies.

TECHNICAL SKILLS

- Cloud Platforms: AWS EC2, IAM, AWS Config, GuardDuty, Security Hub, CloudWatch
- Security Tools & Concepts: Identity and Access Management (IAM), Least Privilege Access, MFA, Threat Monitoring, Logging & Auditing, Security Governance
- Operating Systems: Windows Server, Linux (Ubuntu)
- Enterprise Technologies: Active Directory, SAP ECC, SAP S/4HANA exposure
- Networking & Security: Network Hardening, Security Groups, Access Control, System Monitoring
- Cybersecurity Concepts: Threat Modeling, Security Compliance, Risk Management, Incident Response Fundamentals
- Development & Tools: GitHub, HTML basics, CI/CD exposure, Remote Administration
- Soft Skills: Communication, Cross-Functional Collaboration, Technical Troubleshooting, Documentation, Process Improvement

PROFESSIONAL EXPERIENCE

Information Technology Specialist / Cybersecurity Support

U.S. Federal Government | Virginia

2010 – Present

- Supported enterprise IT systems and security-focused operations within a large government environment
- Assisted with identity and access management processes, account provisioning, permissions management, and security-related troubleshooting
- Worked with enterprise systems and security procedures involving compliance, operational support, and secure access management
- Supported technical troubleshooting efforts involving user access, enterprise applications, and infrastructure systems

- Participated in documentation, process improvement, and coordination between technical and operational teams
- Assisted with secure system operations in highly regulated environments requiring attention to data protection and operational security
- Developed hands-on experience with security monitoring concepts, audit awareness, and enterprise technology support
- Worked in fast-paced environments requiring communication with leadership, end users, and technical personnel

CYBERSECURITY & CLOUD PROJECT EXPERIENCE

AWS Security & Cloud Engineering Labs
Personal Lab Environment | Ongoing

- Built and configured AWS EC2 cloud environments using Linux and Windows Server systems
- Implemented IAM governance controls, user roles, permissions, and least privilege access concepts
- Configured AWS CloudTrail, AWS Config, GuardDuty, Security Hub, and CloudWatch for logging, monitoring, and security visibility
- Practiced network hardening and security group configuration to secure cloud workloads
- Worked with Windows Server deployment and remote administration in cloud environments
- Developed foundational experience with cloud security operations, monitoring, and compliance-focused configurations
- Studied AI security concepts, security frameworks, and modern cloud security best practices

EDUCATION

Southern New Hampshire University (SNHU)
Bachelor of Science in Cybersecurity
Expected Graduation: 2027

ADDITIONAL INFORMATION

- Strong interest in AI security engineering, cloud security, automation, and enterprise cybersecurity
- Experience working independently in remote and enterprise environments
- Comfortable learning emerging technologies and adapting to evolving security requirements
- Active learner with ongoing self-study in AWS, cybersecurity operations, AI security concepts, and enterprise security technologies

This certificate is
awarded to

BRYAN K. JONES, JR.

in recognition of Fifteen Years
of service in the
Government of the
United States of America.
